Group 6
Members: Eduardo, Fuming, Arvind
Manager: Srihari

Project: Umass Meal Planner

Frameworks:

Django mostly for backend purposes. (Using url.py)
The database we use will be Postgresql.
React for frontend (Generating URL requests and sending results back)

Work Distribution:

Eduardo - Django / Postgres
Fuming - React & Django / Postgresql (I will help out to make sure everything is good)
Arvind - React
